

## Butterfly Valves

### PRODUCT HIGHLIGHTS

### WHY SPX FLOW?

Whether you need manually or pneumatically controlled butterfly valves for pipeline installation or preassembled valve manifolds, the SV/SVS series from SPX FLOW is the answer. A robust and reliable shut-off seal with a long service life, butterfly valves offer great durability, economy and ease of use for a wide range of applications. Easy to install and maintain, butterfly valves close under pressure to form a leak-tight seal, plus have the ability to throttle flow with a positioner.

### FEATURES

- Simple design
- 316 LSS construction and 32Ra internal surface finish
- Slide bearing on top and bottom shafts
- Multiple seat seal materials available
- Modular seal, actuator and control top options

### BENEFITS

- Easy to maintain
- Compliant with sanitary standards
- Robust and reliable with long service life
- Various options to meet specific applications needs
- Readily available and minimum spare parts required on shelf
- Allows automation and safe processing
